Perfect overview
For the widest variety of products

Clear presentation of the product mix
With its 180 article keys, the bC-U4 Black can cope with the presentation of even the widest range of self-service fresh foods. Thanks to the freely configurable keypad, convenient, individual adaptation of the product mix display to your individual requirements is extremely easy.

Bright display
High contrast and easy to read: The alphanumeric LCD segment displays the article, price and weight information. The optional high-resolution dot matrix display supports graphic displays or running advertising texts.

High printing speed
No queues at the self-service scales – thanks to fast label printing, and to the ability to change the paper in a few seconds. Important for servicing and maintenance: the thermal strip in the printing unit can be reached easily, and is therefore quick and easy to clean.

Easy networking
No unnecessary repetitive tasks: whether price changes, comparison with the goods management system or automatic sales totaling – with the variety of interfaces and easy networking of the bC Black family of scales, you save time and money.

bC-U4 Black
Self-service scales with numerical keypad for large product mixes

The bC-U4 Black self-service scales are suited to retailers with very wide product ranges in their self-service fresh-food department. Thanks to the numeric keypad with its 180 freely configurable keys, you can give your customers a clear overview on the self-service scales even when your range of products is very large – ideal for large fruit and vegetable departments. The bC-U4 Black self-service scales combine a remarkably fast weighing process with the operating experience of a classic keypad. The robust, non-wearing Light Touch keypad is easily cleaned and very easy to operate.

METTLER TOLEDO

METTLER TOLEDO bC-U4b
Performance features

- **Freely configurable 180-key pad – for the widest of product mixes**
- **Clear and easy to use – fast self-service weighing without waiting**
- **Convenient for servicing and maintenance – for maximum availability**
- **Easy networking – for ideally integrated processes**

bC Black family of scales

Rugged. Reliable. Durable. The bC Black family of scales combines modern weighing technology with proven keypad operation. It features fast weighing processes, a wide range of sophisticated scale functions and a comprehensive range of optional fittings. The range of models comprises weighing solutions for all types of fresh food – whether for the service counter, in the self-service area or in pre-packaging.

Modern networking

bC Black store balances can easily be combined to form a virtually unlimited network. PC data processing simplifies the central control of information streams.
