Pallet Scale Package
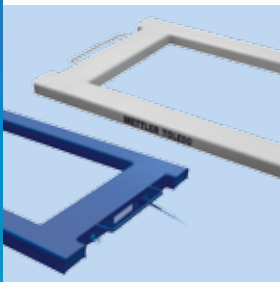

Mobile, Solid and Easy to Use
BSA221 and BSA226

Terminal
- Big and bright LED display
- Standard RS232 interface
- IP54 for plastic housing
- IP65 for stainless steel housing

Weigh Bridge
- BSA221 – Carbon steel version
- BSA226 – Stainless steel version

Structure
- Handle and wheels for easy moving
- RockerFoot ensures accurate and reliable weighing
- Level bubble for simple and fast platform leveling

Complete Pallet Weighing Solution

The BSA221/BSA226 with capacities up to 1500 kg is a functional complete pallet scale and ideal for transshipment like goods receiving and shipping departments. Wheels in the fork end and a handle on the frame make the platform fit for flexible use. Weigh on site. Terminal and platform are preassembled and optionally fully approved. The unique RockerFoot suspension guarantees a good shock- and vibration damping. After alignment, the BSA221/BSA226 is immediately ready for use. The painted version BSA221 is supplied with the robust IND221 terminal. The stainless steel version BSA226 is designed for harsh environments and is supplied with the stainless steel IND226 terminal.

The terminal IND221/IND226 is easy to use and the large 30 mm display allows quick reading even under difficult environmental conditions.
