

Fast. Reliable. Unobtrusive. Flexible Weighing and Scanning

Fast weighing processes

Ariva checkout scales provide fast weighing and exceptional transaction speed to reduce customer wait times. This is critical around the cash register, improving customer service, and increasing efficiency for sales personnel.

Robust design

Your business depends on checkout scales being ready for use at all times. The Ariva's robust design provides protection against dirt and liquids for many years of dependable performance.

Unobtrusive

The Ariva-H provides weighing and scanning in a compact design which sits down into new or existing counter cutouts out-of-the-way until you need it, reducing clutter and barriers between your operators and your customers.

Flexibility

The Ariva-H will communicate with most POS systems and will support a variety of scanners from the major scanner companies of the world.

Ariva-H Horizontal Scanner Scales

The Ariva-H is a perfect fit when counter space is at a premium or when a bi-optic scanner is too big for your customer-focused application. The Ariva-H delivers reliable weighing and scanning performance when you need it, and it is out of the way when you don't.

- **Fast weighing with high-performance dual-interval scale**
- **Robust design and high quality manufacturing for reliable performance**
- **Ideal for applications where counter space is a premium and unobstructed customer contact is a priority**
- **Easy integration and installation – compatible with most POS systems**

For the Most Stringent Demands

The Ariva-H horizontal scanner scale is the the METTLER TOLEDO checkout solution for retailers with the most stringent demands. The Ariva series for weighing at the register comprises weighing modules to be installed in bioptic scanners (Ariva-B), scales for integration of horizontal scanners (Ariva-H) and standalone scales without scanners (Ariva-S).

Technical data

Ariva-H Dual Interval Checkout Scales

Weighing ranges

Maximum load: 6 / 15 kg dual interval
 Increments: 2 / 5 g
 Minimum load: 40 g

Interfaces

RS-232, USB 2.0, adapter cable for cash register connection available

POS connectivity

Compatible with most POS systems.

Scanners

Flexible, adaptive system for easy installation of multiple scanners in any of four possible directions. Compatible with scanners from all major scanning companies including:

- Datalogic MAGELLAN™: 2300HS/3300HSi
- Motorola/Zebra Technologies: LS7808
- NCR: RealScan™ 84

Platter

Easy to clean, stainless steel platter with sapphire glass to resist scratching, and a vegetable bar to reduce shrink.

Temperature range

-10 °C to +40 °C
 0 – 85% relative humidity, non-condensing

Power supply

External 100-240 V AC / 12 VDC / 840 mA power supply.

Approvals

OIML, NTEP, CE, AM

Device dimensions

- 399 x 292 x 106 mm (L x W x D)
- Platter: 342 mm x 282 mm (L x W)
