# Count on performance

Combined weighing and price labeling for your products

Increase efficiency

With its stop system located at the front of the machine, the FreshPack solution allows you to set the product processing speed for any modified atmosphere packaging system.

Increase accuracy

With its Mettler Toledo Retail Stop and Start weighing system, the FreshPack solution ensures that you can weigh all your products reliably and accurately up to 6 kg.

Increase productivity

Operating at a speed of 25 packages per minute and offering an automatic sticker applicator option, the FreshPack solution helps you save time and significantly increase productivity in your backroom.

Increase simplicity

Through its simplified and robust design, the FreshPack solution offers a first-rate cleaning and maintenance process that's easy to use for all operators.

The FreshPack solution is available in 1 or 2 printer versions

METTLER TOLEDO Retail's FreshPack improves backroom performance. The additional POP label printer can print logos on blank, multi-color sticker rolls, so you can customize your logos and create optimum communication with your customer. The automatic sticker applicator helps you save time and increases your productivity. You can do everything from a simple, user-friendly interface. You can be confident that your shelves will be perfectly presented, generating additional sales.

METTLER TOLEDO

The ideal choice
for optimizing your backrooms

Reliable, intuitive, and fast, to provide you with high-quality packaging, METTLER TOLEDO Retail's FreshPack weigh price labeling solution is the ideal tool for high-production backroom environments.

• Versatility: POP label printer can easily be added to the frame.
