

Balances for pharmacies

Dedicated

The METTLER TOLEDO Pharmacy Line has been specifically tailored to the needs of pharmacies – to make your everyday weighing as easy as possible.

Accurate and reliable

METTLER TOLEDO is a byword for absolute accuracy for every weighing job. All our balances are robust and designed for a long service life.

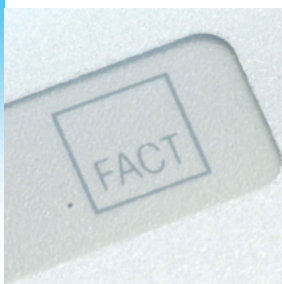

Simple formulation

All the balances in the Pharmacy Line have the "Formula" function. Formulate recipes quickly and easily at the press of a button.

Pharmacy – The new range of balances

Applications in pharmacies are manifold. Handling high-quality active ingredients, for example eye drops, requires precision work and reliable instruments. Dispensing of a wide variety of ointments, creams and medications must be simple and accurate, infusions are often mixed according to the customer's requirements. The proven quality of METTLER TOLEDO meets all the needs of your pharmacy – to your satisfaction and that of your customers.

Automatic adjustment

With FACT fully automatic adjustment, you can be sure that your balances are always accurate – under all conditions.

Always well advised

Even good balances must be checked regularly. Take advantage of the expertise of our service engineers. A regular service will extend the service life of your balance.

NTEP

All B-S/PH models are also available verified.

A

Built-in applications:
– Formulation program
– Unit counting function (except PG-S/PH)

FACT

FACT fully automatic internal adjustment automatically adjusts the balance as soon as the temperature fluctuates.

Delta Range

Ten times greater readability across the entire taring range at the press of a button. This fine range covers 20% of the coarse range.

RS 232

RS232 interface for connection to a PC or LC-P45 printer.

Backlit or fluorescent display for easy-to-read results.

METAL

High-quality, chemical-resistant cast aluminium casing protects the weighing cell and electronics.

Protective cover. Covers the balance casing and protects against dirt and scratches.
