Model 707 Auto-Labeler®

Handles larger trays at higher speeds!
The Model 707 Auto-Labeler® is designed to handle all sizes of trays, including the large family pack trays at higher speeds, up to 34 packages per minute. When matched to the Exact Workhorse® Automatic Wrapper, you will have a complete high production Prepack system.

Higher Production Speeds
- Up to 34 Packages Per Minute
- Speed is matched to the Exact Workhorse® Automatic Wrapper

Flexible Label Formats
- Use standard label formats, or you design your own custom labels.
- Programmable fields, frequent shopper information, discounts, by count, etc.
- Uses blank or preprinted label stock.
- Wide range of label sizes can be used from 1.9 inch to 4.2 inch label lengths.
- Large label supply – up to 6000 labels on standard 2.4 inch labels.

Flexible Label Positioning
- Labels can be applied to any corner of the package.
- Orientation can be programmed into Prepack controller PLU record or manually controlled by a turn label button.

User Friendly Operation
- Prepack Controller is easy-to-learn and easy-to-use!
- Standard or Color TouchScreen Prepack Controllers are available.
- Programmable Preset Keys for quick changeover of product. Up to 35 per page with unlimited pages.

Designed for Food Preparation Areas
- Rugged construction and corrosion-resistant materials.

Network Ready with Management Systems
- Database can tie into production or invoicing systems.
- Connects to standard 10Base-T Ethernet networks or RS232.
