

# Compact and trend-setting

## The powerhouse for the sales counter

### Compact design

The slimline, compact design of the scale saves space at sales counters, does not create any visual barriers between staff and customers, and grants your staff fast and easy access to products on the sales counter.

### Perfect legibility

With their backlit LED technology and adjustable tilt angle, the touchscreen and customer display on the UC-CT-M are easy to read for staff and customers – even in the most difficult of lighting conditions.

### Professional advice

Whether providing hygiene information, keeping staff up-to-date with new regulatory policies, providing expert advice about recipes, or offering information about ingredients and their origin: the touchscreen is the perfect platform for innovative staff training and providing customers with valuable tips during the sales process.

### Visual sales promotions

Stimulate targeted purchase incentives for lucrative extra revenue – in both food and non-food areas. Whether gourmet week, salad dressing tips, or a tasting tour: with the bright customer display, the UC-CT-M whets your customers' appetites for your products.

### UC-CT-M

High-end PC-based compact scale for the most stringent demands

The UC-CT-M PC-based compact scale is the ideal choice for companies looking for a high performance, compact and slimline counter scale. The UC-CT-M is open to third-party applications, easy to integrate into existing IT infrastructures, and powerful enough to handle even the most demanding of tasks. You can use the bright touchscreen in hygiene and sales training sessions for your staff or exploit the benefits of real-time access to information databases, which can help you increase your staff's selling and advisory skills at the service counter.

- **Excellent ergonomics – adjustable touchscreen and customer display**
- **Innovative staff training – real-time access to information databases**
- **Bright customer display – visual sales promotion in compact format**
- **Efficient business processes – seamless integration into goods management**

### For the most stringent demands

The UC Evo Max Line is the PC-based range of METTLER TOLEDO scales for the most demanding requirements. The UC Evo Max Line supports a wide variety of fresh food and also CPU-intensive applications, such as multimedia sales promotions at the point of sale. The UC Evo Max Line impresses with its easy networkability and support for third-party applications.
