

A genuine multi-talent

Cash register and weighing combined

Bright displays

High contrast and easily legible: the standard alphanumeric LCD segment display for articles, prices and weights. The high resolution dot matrix display, which is available as an option, supports graphics or advertising messages.

User-friendly operation

With its 99 keys, 30 of which are function keys and 69 are freely programmable fixed keys, you can set up your bC-R2 Black terminal to meet your individual requirements. The pleasant, non-wearing Light-Touch keyboard is easy to use and clean.

High-performance printers

Fast sales slip and label printing, as well as linerless printing at speeds of up to 1/2" per second. Select from the numerous printer options available. No matter which printer you choose, changing the paper reels is a quick and easy task.

Modular versatility

Whether connecting an external weighing platform, barcode scanner, E-Cash terminals or a cash register drawer: the modular functions of the bC-R2 Black cash register and weighing terminal allow it to fit in perfectly with your requirements profile – all the way up to optional network connections via wireless LAN.

bC-R2 Black

Multifunctional terminal with tactile keyboard

Multifunctional, versatile: the bC-R2 Black weighing and cash register terminal is a versatile all-rounder for weighing, taking payments and price marking. As a weighing terminal, the device supports connection of external weighing platforms for up to 6,000 kg – ideal for any application where conventional weighing platforms cannot cope. Extensive connection options for accessories, such as scanners and E-Cash terminals, convert the device into a powerful cash register terminal. Alternatively, you can also use your bC-R2 Black terminal as labeling device for marking prepackaged goods prices. With the bC-R2 Black terminal, you can rely on an all-rounder that leaves nothing to be desired in terms of functionality and user-friendliness.
