Perfect Operation

Self-service with Touchscreen Convenience

Ergonomic operation
Fast. Interactive. Very easy to use. The touchscreen menu navigation on the UC-GTT-S offers your customers the ultimate in ergonomics and convenience when selecting articles. This secures fast and error-free self-service weighing – without long waiting lines for your customers, even at peak times.

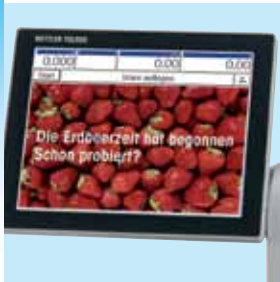

Perfect legibility
More contrast, more brightness, more vividness - with lower power consumption: the UC-GTT-S impresses with the latest backlit LED technology that offers excellent legibility and high energy efficiency – consistently supported by easily configurable energy saving modes for real-life situations.

Contemporary design
Slimline, elegant – the perfect form. The shape and functionality of the UC-GTT-S self-service scale fit in perfectly with modern store design. Daily cleaning and care of the scale is made easy thanks to its heavy-duty and easily cleanable surfaces.

Digital advertising space
Strengthening brands and stimulating customer loyalty: discover the many options of the touchscreen on the UC-GTT-S as an attention-grabbing digital advertising space. Take the opportunity to display your company logo and brand messages when the scale is not being used for weighing.

UC-GTT-S
PC scale with touchscreen operation for self-service areas

Whether in the fruit and veg section of a supermarket or the organic grocery store around the corner: the UC-GTT-S self-service scale is the ideal choice for retail chains and specialist stores wishing to offer customers all the advantages of touchscreen convenience for self-service weighing.

Simple and modern – the UC-GTT-S stands for fast and convenient self-service weighing with a contemporary touch. The clever alternative to weighing at the cash register that frees up your staff to perform other duties and prevents unnecessary waiting times and delays in the critical cash register zone.
